

**Sale Name:** Pat's Bandits Wildlife Rehab Benefit #7

**LOT 122 - Working Antique Suitcase Portable Hand Crank Phonograph- Caswell Mfg. Co. Milwaukee**

**Description**

I know it looks bad on the surface, but if you're not afraid of a little project this could be made to look very nice. The oil cloth covering could be cleaned and the rolled edges glued down or take it off and refinish the wooden case. Runs fine, but needs oil and the reproducer sounds good. Needs a new piece of felt. The crank is removable for storage. PLAYS 78 RPM RECORDS.

**Quantity: 1**
