

**Sale Name:** Pat's Bandits Wildlife Rehab Benefit #4

**LOT 111 - Vintage Marx HO Toy Train Set in Original Box-Rock Island**

**Description**

Needs cleanup. I'm assuming there was another layer of packaging that held all that track. I suppose it could be extra stuff too. The transformer feels like it works. We did not test the locomotive. The slug and the tank are missing one stirrup and the gond is missing all stirrups. The rest looks good.
